## EDUCATION

### Indira Gandhi University

Bachelor of Technology in Computer Science

Meerpur, India

Aug. 2020 – May 2024

### Government Sr. Sec. School

12th H.B.S.E. -85

Dharuhera, India

2019 – 2020

### Vivekanand Sr. Sec. School

10th C.B.S.E. -84.4

Dharuhera, India

2017 – 2018

## EXPERIENCE

### Web Developer Intern

SSITC Solutions

Jan 2024 – June 2024

Bhiwadi, India

- Implemented state management and component-based architecture to create modular and maintainable code, ensuring scalability for future development.
- Utilized Tailwind CSS to efficiently style and design web pages, contributing to a streamlined and visually appealing user interface.
- Leveraged Sass for advanced CSS features and Pug for cleaner HTML templating, improving code efficiency and readability.

### Front-End Developer

SSITC Solutions

Bhiwadi, India

- Developed dynamic and responsive UIs using React.js, enhancing the overall user experience of web applications.
- Implemented state management and component-based architecture to create modular and maintainable code, ensuring scalability for future development.
- Utilized Tailwind CSS to efficiently style and design web pages, contributing to a streamlined and visually appealing user interface.

## PROJECTS

### [Dverto Portfolio](#) | Tailwind CSS, JavaScript, PHP

- Developed a fully responsive and modern web application using Tailwind CSS for fast and consistent UI styling.
- Implemented dynamic front-end functionality using JavaScript to enhance interactivity and user engagement.
- Optimized website performance across various devices and browsers, delivering a smooth and consistent user experience.
- Designed clean and intuitive layouts with reusable components, improving maintainability and scalability of the codebase.

### [Branding Solutions](#) | React.js, Tailwind CSS, Framer Motion, Swiper.js, React Router

- Built a responsive and modern business website using React.js and Tailwind CSS, focusing on a sleek UI and optimized performance.
- Implemented smooth animations and transitions using Framer Motion to create engaging and dynamic user interactions.
- Integrated Swiper.js for interactive sliders and carousels, enhancing the visual presentation of key content.
- Utilized React Router for seamless client-side navigation between pages, improving overall user experience and flow.
- Ensured cross-device and cross-browser compatibility with responsive design principles and performance optimizations.
- Followed modular and component-based architecture, improving code readability, reusability, and maintainability.

### [Construction Portfolio](#) | Tailwind CSS, Laravel, Swiper.js

- Developed a responsive and visually appealing portfolio website for a construction business using Tailwind CSS for rapid, utility-first styling.
- Integrated Laravel for backend logic and dynamic content management, ensuring smooth data handling and scalability.

- Implemented Swiper.js sliders to showcase projects and services interactively, enhancing visual engagement and user experience.
- Optimized website for speed, SEO, and mobile responsiveness, ensuring consistent performance across devices.
- Followed clean, maintainable code practices for improved readability and easy future updates.

## TECHNICAL SKILLS

---

**Languages:** Html, CSS, Javascript, Typescript

**Frameworks:** Tailwind Css, Framer-Motion

**Developer Tools:** Github, VS Code

**Libraries:** React.js, React-Router
